

**DEFINITE ADJECTIVES**

If an adjective goes before a definite noun, **the definite article goes to the adjective:**

*Кучемо е голямо. / Голямомо куче е там.*

We add **'та'** to feminine adjectives, **'то'** to neuter adjectives and **'те'** to plural.

In the case of masculine adjectives, we add **'-ият'** if the noun is the subject, and **'-ия'** if it is not. 'Е' and 'ъ' in the final syllable disappear also in the definite masculine forms, and **'я'** in the final syllable is **replaced by 'е' in the definite masculine and in the plural forms.**
